It ſtrengthens the brain, aſſiſts the memory, and is good againſt barrenneſs. Price per bottle, 4s. 10d. with directions. 38 41

STOCKHOLM, *April 7.*

HIS Majeſty has this day been pleaſed to fix on the 29th of May for his coronation, and to accept the oaths of allegiance on the firſt of June.

Altena, April 17. This moment arrived the poſt from Copenhagen, and we can aſſure you, that the divorce of the King from his Queen has been declared. She is to be ſtiled Princeſs of Aalburgh, and is not to bear the King's arms.

LONDON,

April 19. It is thought the court of Peterſburgh are meditating a blow that will ſhortly aſtoniſh all Europe; no leſs, it is ſaid, than the ſiege and reduction of Conſtantinople itſelf; which enterpriſe, vaſt as it may at firſt appear, will be found leſs difficult, eſpecially if we reflect how greatly the Turkiſh ſtrength is impaired and divided by inteſtine diviſions and civil wars. Certain it is, that ſuch an univerſal panic prevails in the divan, as enfeebles their reſolutions, and perplexes their councils.

A rumour prevails in many knowing places about town, that the Grand Signior has for ſome time had a promiſe, which he can rely upon, from ſome power, which is not yet made publick, of joining him this ſummer, which is the only reaſon of his backwardneſs in coming to an accommodation with the Ruſſians. In all probability, by next Chriſtmas, all Europe will be involved in war.

April 21. The giving a regiment to Sir Robert Murray Kieth, contrary to all the military rules, hath excited a general diſcontent in the army, who are all injured; but thoſe gentlemen who are neareſt in pretenſions to regiments, are moſt exaſperated.

The following are the names of the Captains and of ſhips now fitting out to ſail to the Baltick, and of which Lord Howe is to have the command.

The number of paragraphs, containing falſe news relating to the affairs of Denmark, all ſmell of papiſts, who would excite the mob againſt the free proteſtant Danes, and the houſe of Brunſwick, gives general apprehenſions, that the papiſts intend to embark us in a war with our proteſtant neighbours, that the taxes which muſt enſue may turn the preſent ſcarcity into an abſolute famine.

Yeſterday the charity children of London preceded the coach of the Lord Mayor, which was moſt elegantly ornamented, to St. Bride's church, where a ſermon was preached by Dr. Hinchliffe, the biſhop of Peterborough. In his Lordſhip's coach was Mrs. Trecothick; many other ladies graced the coaches of the other aldermen, amongſt whom were alderman Croſby, Stephenſon, Harley, Turner, &c. Mrs. Bull was in Mr. ſheriff Bull's coach, and Miſs Wilkes appeared in her father's chariot.

Mr. Wilkes's daughter was with him in his chariot yeſterday going towards the city; the horſes had as much blue ribbon about them as might have ſerved for a general election. The gaping holiday folk looking on all the time as he paſſed through the Strand, but not one huzza could he get, though his head was nodding, like a Chineſe figure, at every object that noticed him.

April 25. All defence of the Queen of Denmark, on the charge of adultery, is totally given up; but that is the leaſt criminal part of her conduct. The laſt expreſs is ſaid to have brought an account, that ſhe is divorced from the King her huſband, and that ſhe will be delivered up to the Engliſh ambaſſador, who has inſtructions to convey her to Hanover.

A few days ago the King dictated to Lord Rochford, the words of a letter to Lord Townſhend, cenſuring that Lord's conduct in Ireland. The orthography and paſſages relating to the military, were afterwards corrected by General Harvey.

Of forty two commiſſions in the army lately ſent over by Lord Townſhend, only five were returned, ſigned by the King. The reſt were rejected.

It is aſſerted that certain advices have been received from France, that the report of the pretender's marriage with the Princeſs of Stolberg, is entirely deſtitute of truth.

BOSTON, *June 22.*

We hear that Orders are received from General Gage for the 14th Regiment, now at Caſtle William, to hold themſelves in readineſs to be removed.

Laſt Week Captain Ebenezer Fuller arrived here from North Carolina, and informs, That he was late Maſter of a Schooner owned by John Simpſon, Eſq; of that Place; but that on his Paſſage thither from Jamaica, which he left the 29th of October 1769. he met with contrary Winds and bad Weather, which forced him to bear away for La Vera Cruz, in the Bay of Mexico, where he arrived the 25th of December following, being for ſeveral Days before ſo reduced for want of Proviſion that they were obliged to ſubſiſt on boiled Melaſſes and Sugar: That the next Day he with his Mate and ſix Men, were by Order of the Spaniſh Governor taken Priſoners and confined on board by a Guard of 20 Soldiers, without the leaſt Cauſe given or committed by him or any of his Crew:—That on the 1ſt of January 1770, the Governor attended by the Cuſtom Houſe Officers came on board ſaid Schooner and threatened them with Death if they did not deliver up the Keys of their Cheſts, &c. which they robb'd of all that was valuable, and then gave ſtrict Charge to the Soldiers to keep them under Confinement, which was accordingly done until the 30th of October following, when the Schooner ſunk by Neglect, the Worms having eat out her Bottom; they were then carried on board a Spaniſh Veſſel and there confined till the 7th of January 1772, at which Time they were ordered to embark for the Havannah, and arrived there the 2d of March following: At which Place he ſaw Captain Peter Beard of Jamaica, and about 50 Britiſh Seamen in cloſe Confinement, with ſcarcely any Covering on their Backs; they told him their Living was hard, having but Half a Bit a Day allowed them to ſubſiſt on; and the only Proviſion they could get was Bullocks Lights and bad Bread.—On the 28th of March Capt. Fuller ſailed for North Carolina, leaving Capt. Beard and Company in Gaol, in which ſome of them had been confined above 18 Months:—Capt. Beard deſired he would publiſh his Caſe in the Papers, that the World might know how the Subjects of Great-Britain are treated by thoſe of his Catholic Majeſty.

NEWPORT, June 22.

Laſt Tueſday James Bud and Lemuel Guſtine, were apprehended and committed to Gaol in this Town, on ſuſpicion of being concerned in counterfeiting and paſſing New-York and Jerſey paper money. About a week before, they, with ſome others, came

from Nantucket in a sloop and anchored in Mackerel Cove, a little within our Light house, where these two left her and came to town, and agreed with an engraver to cut them a plate for the escutcheon or border of a New York forty shilling bill, for which purpose they cut out the printed part of the bill, and gave the engraver the other part cut into three or four pieces. But before the engraver had quite finished the plate, he accidentally saw a New-York bill, which Bud had passed to another man, by which he discovered the real business he was about, and immediately informed Judge Hazard of the same. After Bud and Gustine were examined, the sloop was brought into this harbour, and being searched, upwards of fifty pounds of York and Jersey money was found, including a small sum Bud and Gustine had about them. They confessed but little on the examination: But it might be easily perceived that one Wills of Connecticut, one Smith of New York, and a number of others were concerned in this affair.

The money above mentioned consists of sixty, twenty, ten and five shilling bills, principally of New-York currency, most of which are well known to be counterfeits; the Jersey bills doubtful, and may probably be some of those taken out of the treasury when robbed. There is one five pound bill not signed: The forty shilling bill by which the plate was to have been made, is a true one.

Wednesday se'nnight arrived at New-London, the Ship London Packet, Capt Timothy Parker, in 8 Weeks from Bristol, who has brought London Papers to the 28th of April, and from which the following Articles are extracted.

COPENHAGEN, April 12.

AT length some particulars have transpired of what passed before the great Commission on the 6th instant, which day will be memorable in the history of this kingdom. The Queen Carolina is condemned to perpetual imprisonment, and consequently her marriage with the King our Sovereign is nulled. Though the Court has not yet tho't proper to publish this sentence, it is nevertheless true. Counsellor Bang read the accusations against the Queen which seemed to be pretty numerous, as they filled four sheets of paper. The Attorney General Uldahl spoke in favour of the accused party, and acquitted himself with so much eloquence in the cause of the young Queen, that he drew tears from the whole audience. The five following questions gave rise to great debates among the Judges: 1st, How the divorce was to be performed? 2dly, What title the Queen should have after the dissolution of the marriage? 3dly, How to act with respect to the young Princess? 4thly, What pension should be allowed the Queen's imprisonment? The three ladies, who are to accompany the Queen in her imprisonment, which will probably be in the Castle of Aahlbourg, are to engage by oath not to absent themselves from the prison after eight o'clock in the evening in summer, and six in winter.

The whole Court cannot but lament the fate of this unhappy Princess, who is not yet 21 years of age, and condemned to perpetual imprisonment. It is assured the King is going to visit his German dominion, and that he will set out the 23d instant. We are impatient to know the fate of the other state prisoners, to whom the present circumstances seem to presage nothing very favourable.

Mr. Keith having expressed a desire to return home, was answered that he might go whenever he thought proper. At the same time a courier was dispatched to Baron Dieden for his recall. It is said this Minister is ordered to declare to the British Court that the Queen will be permitted to return to her own country, upon condition that she will give security never to set foot again in Denmark.

Paris, April 17. The Porte has consented to the following conditions: 1. That the holding of a congress should be no longer delayed. 2. That this congress should be held in Walchia. 3. That the Danube should serve as a boundary to both armies during the congress. 4. That in case the negociations for peace should prove fruitless, the armistice should nevertheless continue for the space of three months, reckoning from the day of the breaking up of the congress.

LONDON,

April 24. The Scarcity is so great in Norway, that the Peasants are driven to eat even the Bark of Trees, and in the Towns the Artisans are driven to still greater straits.

Within these few days an information has been given, by which it appears that a certain noted monopolizing corn factor has hoarded such immense quantities of that article, that a great part of it is so consumed and spoiled by vermin, that Hogs are now fed with what the poor have been long starving for want of.

April 26. A noble Lord has declared that a war with both France and Spain cannot be avoided many months longer.

A letter from Cadiz says, that 6000 troops, with a suitable quantity of military stores, &c. embarked in Cadiz Bay, on the 26th ult for South-America.

Since last summer no fewer than seven vessels have been seized by the Spaniards off Cuba, on pretence of illicit trade.

The progress of Spain's insulting behaviour to Great-Britain is worthy of remark. They began gently, and have since gradually ascended, till they at last *bit us directly in the teeth.*—The first step was excluding British ships from Carthagena, on the flimsey pretence of an illicit trade. The second attempt was at Cadiz, where they dared to fire on a British vessel, and mal-treat its master with his Majesty's commission in his pocket. They then seized several English sailors, in different ports, on various frivolous pretences, and confined them in prison, where they still (to the eternal disgrace of Britain) remain.

Extract of a letter from the Hague, April 17.

"According to the last advices from Copenhagen, the Attorney-General having drawn up the charge against the Queen Carolina Matilda, and delivered it to the Committee of Enquiry; and the Queen's defence being likewise produced, Commissioners were sent with both of them to Cronenburg to shew them to the Queen—her Majesty received them very amicably.

April 23. The fleet that were to rendezvous in the Downs, supposed designed for the Baltic, are countermanded. Ships of war will be kept in readiness, in case any circumstance should arise to render such a measure necessary.

The Parliament will rise the 21st of May.

Jonathan Britain, who is now at Sherburne to take his trial at the next Sessions, declares in the most solemn manner, that he will seal the truth of his testimony relative to the fire at Portsmouth with his blood—that all he requires is a public hearing on the affair, and if he cannot prove every tittle of his information, he is content and will cheerfully submit to any punishment he may thought to deserve—that if any Gentleman of Character will insure him a hearing either at the bar of the House of Commons, or in a public Court of Justice, he will deliver up all his papers into their hands.—But, a correspondent says, it is too evident that the present trial for petty forgeries is designed to suppress an enquiry into the great National Concern, the Portsmouth Conflagration.

It is said Lord North will be called up to the House of Peers.—That the Seals will be offered to Lord Cambden, and if he declines to Lord Chief Justice De Grey.

The Queen of Denmark, we hear, by a letter which comes from the British Minister at Copenhagen, has never once lost her fortitude in the midst of all the dangers that surrounded her; though a woman, and a very young one, she still maintained all the dignity of her rank, and determined to die at least with heroism, if she could not live with reputation.

Accounts from Corsica inform us of a most cruel war being carried on in that island between the French and miserable natives; a war resembling the hunting parties of savages on one side, and the brutal resistance of enraged beasts of prey on the other; who, as soon as those bloody conflicts are over, retreat again to their dens, caverns, and inaccessible fortresses.

We can assure the public, that an experiment is shortly to be made of a machine, invented by Dr. Dominiceti, of Chelsea, by which he engages to prove that provisions may be dressed for one thousand persons, in three hours time, with less than is commonly used in a parlour grate, and in all the various methods of cookery. It is said to be constructed on the most simple principle, and to be one of the most ingenious and useful inventions ever seen in this kingdom.

April 25. A letter from Copenhagen by yesterday's mail says, That the trial of the Queen is over; she is confined in the Castle at Aalbourg, to bear the title of Majesty and her children are declared legitimate. Her Majesty is allowed to take the diversions of the country under a guard, but not to cohabit with the King. Count Struensee and Count Brandt are found guilty; the former will be executed, and the latter banished.

We are well assured, that notwithstanding the seeming slowness of a Great Personage to undertake the cause of an illustrious young lady of his own family, his first address to his Minister after receiving the news of her confinement was, "Save her honour, save her life, and do what you please with your master."

April 27. The Duke of Cumberland wrote a very spirited letter to an august personage, requesting he might be sent with the squadron lately sitting out for sea; and, as far as lay in his power, acquit himself of the service he owed to his Sovereign and to his country.

'Tis certain that his Royal Highness the Duke of Cumberland applied to his M———y for the command of the squadron sitting out for the Baltic, but his request was rejected at the instigations of Lord Sandwich in conjunction with the Mansfield junto.

A coolness, it is said, has for several days past been visible between a great personage and an illustrious visitor, who takes up his occasional residence amongst us; the cause is, however, at present, an impenetrable secret.

An order has been lately issued out by the French commandant at Dunkirk, which obliges all the English subjects, many of whom are of good character, and in capital business, to leave that place immediately.

By letters received on Saturday last from Northamptonshire, and other counties in the very center of the kingdom, we are informed, that the poorer sort of people are starving in the midst of plenty. Wheat bread they never taste of, wheat being nine shillings per bushel, but eat barley bread. Mutton and beef are sixpence per pound, and butter ninepence. God knows how these melancholy affairs will end, under the reign of the best of Kings.

April 28. This day the House of Commons met pursuant to their last adjournment; and on Thursday the Right Hon. the House of Peers will meet pursuant to their last adjournment.

No less than three expresses arrived yesterday at St. James's, from Sir Robert Murray Keith at Copenhagen.

It is said the ministry have received a printed account of the trial of the Queen, and an explicit detail of all the late disturbances in Denmark, with their causes, the reasons for confining the Queen, &c. which, it is hoped, for the satisfaction of many thousands, they will immediately publish.

Col. Pens is appointed grand master of the household to the young Queen of Denmark; and his regiment of cavalry is ordered to be stationed in the neighbourhood of the castle of Albourg, the place destined for the residence of that Princess.

We are informed that it is stipulated, that the sum determined to be annually allowed the Queen Consort of Denmark, (which is 40,000 dollars) shall be expended within the Dominions of his Danish Majesty; and in case she should return to England, that she shall be presented with 10,000 dollars, and the annual appointment cease.

Extract of a letter from Warsaw, April 8.

"Yesterday the Russian ambassador received an express from Jassy, and we hear the congress will soon be opened there, as several great houses are already taken for the ministers. The Turks would rather have had it at Bucharest; and they seem now to be in earnest about this great work."

There is no occasion for a war with Denmark. The Danes are so sensible of our superior strength, that they will grant us every thing from the apprehensions of a war, which we could possibly obtain by actual hostilities.

His Majesty now heartily repents of having lived so long at variance with his subjects. He would willingly go to war with the Danes, to vindicate the honour of his sister. But he knows the nation would not back him. This must ever be the condition of a limited Monarch, who sets his people at defiance.

We hear that the divorce which has taken place between the King and Queen of Denmark is very satisfactory to the latter and to her family; and that no farther punishment will be inflicted on her; and that there will be no rupture between this kingdom and that of Denmark, provided no further ill treatment be offered to the Queen Matilda.

From Madrid we hear, that their American dominions are so plentifully stored with all manner of European goods, that in case of war, (which is universally looked for there very soon, though they know not with what power) nothing will be wanted for a very long space of time.

They write from the Hague, that his Prussian Majesty has at this time an army consisting of 30,000 infantry, and 7,000 cavalry, fit for immediate action.

PHILADELPHIA, June 29.

The GENERAL ASSEMBLY of New-Jersey are to meet at Perth-Amboy on Wednesday, the 19th of August next.

Captain Bingley, from Jamaica, on the 18th inst. in lat. 38, 18, long. 74, spoke a brig from Jamaica for New-York, out 39 days.

Captain Wilson, from Lisbon informs, that on the first of May arrived there a Packet, in five days from Falmouth, who, it was said, brought an account that ten ships of the line, two frigates, two bombs, and a fire ship had actually sailed from England for Denmark. *(This cannot be true.)*

NEW-YORK, July 2.

On Thursday last his Excellency the Governor issued a Proclamation, whereby the General Assembly of this Province is prorogued to the 8th Day of September next.

Last Saturday Morning, at 6 o'Clock, died of a lingering Consumption, in the 22d Year of her Age, Miss HANNAH RAY, Daughter to Mr. JOHN RAY, Merchant in this City. She was a young Lady whose Deportment through Life was truly amiable. With the justest Rules of Decorum and Propriety, all her Conduct and Conversation were remarkably consistent; and every Relation to Society in which she stood, she fulfilled with the most sacred Regard to Truth, and conscientious Exactness; as a Daughter she was ever most dutiful and affectionate; as a Sister most kind and respectful; and as a Friend and Neighbour disinterestedly benevolent and sincere. Reservation without Pride, Cheerfulness without Levity, and Religion without Ostentation; these were the darling Attributes of her most ingenuous and candid Heart. Elevated by a Dignity of Temper—to the Approaches of Vice, or the least Shadow of Meanness she was ever inaccessible; and in Matters even of the smallest Consequence, she could never indulge either in herself or her Friends, the least Deviation from Truth: And so replete also was her generous Mind with humanity, that to afflict even an offensive Insect, was frequently a Task too difficult for her, without afflicting herself. In short, if Sentiments of genuine Truth, Virtue and Humanity, could e'er be said to fix their Empire in the human Breast, it was in her's: And now to the full Fruition of that God in whom she trusted, and to whose Will she was perfectly resigned, she's gone: Alas! early in Life, but truly mature in Character and Esteem.

Capt. William Lowndes, in the Sloop Hester, in 16 Days from St. Croix, brings the following Account, viz. On the 17th of June, in Lat. 34, 48, Long. 72, spoke a Brig from Philadelphia, bound for Jamaica, out 4 Days from the Capes, but did not learn the Captain's Name; the next Day, Lat. 33, 48, Long. 72, 30, spoke the Schooner Rebecca, a Whaler, John Kindrick, Master, 11 Weeks from off Vera Cruz, bound to Martha's Vineyard, who informed Capt. Lowndes he had taken 13 Spermaceti Whales, in the Bottom of the Bay of Mexico, from which he had only made 120 Barrels of Oil, but found the Whales to be very plenty there; and being very short of Provisions, he was obliged to quit his Station, and turning to Windward, off Cape St. Anthony, he fell in Company with upwards of 30 Sail of vessels, mostly Europeans, from which he got little Relief; and that on the 8th of May, the Brig Minerva, bound to London, William Burk, Master, and Capt. Davis, in the Ship Marquis of Granby, together with a Schooner for Providence, Capt. Chambers, all from the Bay of Honduras, being becalmed off Swan's Island, went ashore in their Boats with a View of getting some fresh Prog-

but the Current running very rapid, and a Gust arising, soon drove the Vessels from the adjacent Shore; the next Day they reached the Island again, when the Remainder of the Crews went on shore in Search of their Captains and Ship mates, but to their great Surprise found only a few Turtle turned, and two Powder Horns, which they brought on board, and set sail immediately for Rattan, in Quest of the said Masters and People there, but having no Intelligence of them, they entered a Protest, and proceeded upon their Passage for Europe, the Schooner only excepted, which returned for the Bay of Honduras, and was so unfortunate as to have the Captain's Wife on board; and that the said John Kindrick further said, that off the Bay of Hunda, he received on board, from the Minerva, John Burk, Son to the said William Burk, whom he proposed to put on Shore at Rhode-Island, as the Brig properly belonged to Aaron Lopes there, &c. On the 12th of May, Capt. Kindrick went on board a Spanish Guarda Costa, a Snow of 12 Carriage Guns, Capt. Don Totius Francisco, from Port Mahoo, who supplied him with a hundred Weight of Bread, and other little Necessaries, which were very small for 13 People. The next Morning Capt. Kindrick saw the said Snow ashore off the Coxcombs, with her Top-gallant Sails clewed up, and the rest of the Sails hoisted a-tanto; he saw the People very expeditious in getting on Shore, as the Vessel soon went to Pieces when the Sea Breeze set in. Capt. Kindrick likewise said, that he and his People had been at very short Allowance for many Weeks, but had got sufficient Relief of Bread and Water, and was entirely out of Salt Provisions, with which Captain Lowndes supplied him.

The Brig Sally, Capt. Hunter, was to sail from the Bay for Philadelphia, about 3 Weeks after Capt. Brass.

Capt. Farrell left Falmouth the 4th of May, and says, the Mercury Packet, Capt. Dillon, was to sail with the Mail for this Place the Sunday following. The 22d Instant, in Lat. 29, 21, Long. 69, Capt. Farrell spoke with Captain Crosby, from Yarmouth for Philadelphia, 9 Weeks out; and next Day with a Brig from Rhode-Island for Surinham, with Hay on Deck.

Capt. Nehemiah Smith Odell, a noted Coaster from Fairfield to Boston and this Place, who fell overboard and was drowned the 27th Day of January last, was taken up the 11th Instant, at Ship-Hand Point, in Stanford, with all his Clothes, Watch, Buckles, &c. just as they were when he fell overboard.

The London, Capt. Chambers, of this Port, was spoke with the 21st ult. in Lat. 42, 10, Long. 58, on her Voyage from hence for London, by Capt. Turner, who is arrived at Portsmouth, in New-Hampshire.

Yesterday Morning arrived here, the Remainder of the 3d Division of the Royal Americans, under the Command of Colonel Provost.

The Earl of Halifax Packet, Capt. Boulderson, sails this Day with the Mail for Falmouth.

[A circumstantial Account of the Murder of Mr. Nathaniel Brewster, of Brookhaven, on Long-Island, we are obliged to defer till our next.]

[☞ The New-York Militia Act, which every Officer and common Man in the Province will want, may be had of the Printer.]

Custom-House, New-York, Inward Entries.

For CHARLES-TOWN,
SOUTH-CAROLINA, directly,
And proposes to follow that TRADE,

THE sloop BETSY,
Thomas Timpson, master, a fine new cedar built sloop, burden 50 tons, (merchant's tonnage) now lying at Franklin's Wharf, near Peck's Slip, is ready to take in freight or passengers for the above place. The Vessel has very good accommodations, and will sail in a short time, having good part of her loading engaged. For Freight or passage apply to John Aiser, or the said master on board.

WILLIAM DEANE, Coachmaker,

INFORMS the publick in general, and his customers in particular, that he carries on his business as usual, in Broad-street, where he makes all sorts of coaches, landeaus, phatons, curricles, chairs and chaises; likewise all sorts of harness and saddlers work, as also painting, gilding and japanning in the neatest and most elegant manner.—And as he finishes all carriages whatever in his own shop, without applying to any other, he is likewise determined to make them as good, sell them as cheap, and be as expeditious as there is a possibility; and to convince the publick of the truth of what he asserts, he will make any piece of work that is required, equal to any imported from England, and will sell it at the prime cost of that imported, by which means those who are pleased to favour him with their custom will save the freight, insurance, and the expences naturally attending in putting the carriages to rights after they arrive. And as a further inducement, he will engage his work for a year after it is delivered, that is, if any part gives way or fails by fair usage, he will make it good at his own expence. Those advantages cannot be obtained on carriages imported. He has now a considerable stock of the best of all materials fit for making carriages.—For the above reasons, he most humbly requests the encouragement of the publick, which will be most gratefully acknowledged by him.

Said DEANE paints and repairs all manner of old work very reasonably; and has for sale, just finished, a new phaeton, and four new chairs. 39 6t

RENOWN'D Britannia! lov'd paternal Land,
Regard thy Welfare with a watchful Eye;
When e'er the Weight of Want's afflicting Hand
Wakes o'er thy Vales the Poor's perfuasive Cry:
When Slaves in Office Freedom's Rights withstand,
Where Wealth enormous sets th' Oppressor high,
And Bribes thy ductile Senators command;
Then mourn, for then thy Fate approacheth nigh.

Not from perfidious Gaul, or haughty Spain,
Nor all the neighbouring Nations of the Main,
Tho' league'd in War, tremendous round thy Shore,
But from thy self, thy Ruin must proceed;
Not boast thy Power, for know it is decreed,
Thy FREEDOM *gone*, thy POWER *shall be no more.*

BILES ISLAND LOTTERY.

THE managers of this lottery, do hereby inform the publick, that they have determined to begin drawing on Monday the 20th day of July next, and to continue from day to day till the drawing is finished. There are yet a few tickets unsold, which, it is expected, will all be disposed of by that time; but if that should not be the case, the publick may be assured that the lottery will be drawn at the time abovementioned, without fail. No lottery was ever set on foot of such general Advantage to this city as attends this, as by means thereof 400 lots of ground will be distributed among a number of freeholders, and that at the moderate price of 25l. per lot on an average, which is certainly much preferable to hireing ground on lease, at 40s. per annum for a lot, as is generally given, or even better than to hire at 20s. No arguments are necessary to make this evident, many know it by experience; it is therefore not doubted but the few tickets on hand will readily be disposed of. Such as are desirous to become Adventurers are requested to be speedy in their applications. The managers are,

ALL sorts of paper and paste board, viz.

Brown, whited brown, Blue, and grey } Waste or wrapping paper, different sizes,
Purple sugar loaf, Cartridge and press } Paper
Printing and writing paper of various sorts and sizes
Paste board of all qualities and sizes

Which are to be sold at the lowest prices, at his store in Queen-street, near Burling's slip, where he gives the best prices for Linen Rags, according to their quality and fineness.

When it is considered that the above paper and other articles manufactured here, make a clear saving to this country or all the money that would have been sent out to purchase them from abroad, it is hoped that all those who really wish to promote the interest of America, and of this country in particular, with which their own interest is closely connected, will contribute their aid to the success of this undertaking, which cannot be effectually done without a constant care in saving and supplying him with those linen rags, which are generally destroyed or thrown away as useless, tho' they are absolutely necessary to a paper manufactory, which cannot be carried on without them.

To add to the difficulty of procuring a sufficiency of rags, considerable quantities have been collected here and sent to other colonies, whereby their manufactories have been supplied, to the injury of our own, with this material article: And tho' the legislature have not yet thought proper to prohibit the exportation of it, yet it is hoped a due regard to their own interest will incline the inhabitants of this country to supply a manufactory among themselves, preferably to those of another colony.

N. B. Good encouragement will be given to Journeymen paper-makers. 33—

The above is not the Result of *Vanity* or *Parade*, for should it be doubted, proper Testimonials shall be produced, to prove the Assertion;——As it is the sole Wish of the said James Yeoman, to obtain favour, only proportioned to the Knowledge he has, and the Satisfaction he affords in his Business—on those foundations he submits his Reputation, as an Artificer, to the Judgment of the Impartial. —27

THE benevolent Sentiments which your Excellency was pleased to express when this Society had the honour of addressing you, have laid them under an indispensible Obligation to give the most publick Testimony in their Power, of the high Sense they entertain of your humane Disposition: This they have taken the Liberty to do, by unanimously electing your Excellency a Member of their charitable Institution; and they have the utmost Confidence that the Honour which the Society have conferred upon themselves, by the Nomination of so respectable a Member, will be as acceptable to your Excellency as it was pleasing and agreeable to them; and they beg Leave to present you with a Certificate of your Election, and a Copy of their Charter.

His HONOUR's ANSWER.

Gentlemen,

THE flourishing State of your Society, daily adds to the Happiness I felt from having it in my Power to grant an Establishment for the benevolent Purposes of affording Relief and Solace to a Class of our Fellow Citizens, who, by an Employment extensively useful to the Community, are exposed to Dangers, to Injuries, and Losses.

I thank you, Gentlemen very heartily, for the generous Expression of your Sentiments in this Address;—you have pursued the Design of your Institution, with a Zeal and Integrity that greatly heightens this polite Testimony of your Esteem. With Pleasure I participate with you the Honour of being a Member of the beneficent Marine Society of New-York.

CADWALLADER COLDEN.

LONDON, April 22.

It is said that some acts of indulgence will shortly be granted to the Irish Roman Catholics, on account of their dutiful behaviour to government.

Letters received by the last Dutch mail, remark, that his Britannic Majesty had actually ordered all his electoral troops of Hanover, to assemble immediately at Hamburg. This advice was received from the River Elbe, on the 27th of last month; and as the town of Hamburg is situated, so that a few thousand troops quartered there and in its neighbourhood, may, with great facility, take possession of all his Danish Majesty's dominions in Germany, it is generally conjectured that the Elector of Hanover will avail himself of the troubles reigning at present in Copenhagen, to seize and make himself master of such Danish dominions as may lie contiguous to the Electoral dominions of Hanover.

A Gentleman lately arrived from Dunkirk, says, that during three weeks stay at that place, no less than 400 sheep arrived there from different parts of England in smuggling vessels.

Great complaints are made here in England, of the dearness of provisions, and not without sufficient reason; but at Bourdeaux, Marseilles, and several other places in France, at this present time meat sells at the price of twenty-pence per pound English money.

Last week died Mr. Philip Mason, at the George Inn, at Usk, in Monmouthshire, a man of remarkable large size; he measured round the wrist eleven inches; at his arm, near the shoulder, twenty-one inches; round the breast, five feet; body, six feet one inch; thigh, three feet one inch; calf of the leg, two feet one inch; and small of ditto, one foot seven inches; and, notwithstanding his bulk, was extremely active.

WILLIAMSBURG, *June* 11.

Wednesday se'nnight, in a gale of wind and thick weather, a schooner from Philadelphia, John Kerr, master, bound for Portsmouth, deeply laden, was drove ashore at the mouth of Currituck inlet, and beat to pieces. The people were saved, but the chief of the cargo will be lost.

HALIFAX, (*Nova-Scotia,*) *June* 9.

Last Saturday as the Sloop Frugality, John Burrows, Master, was coming into this Harbour from New York, she run upon the Reef of Rocks near Point Pleasant, where she bilged, and immediately filled with Water, the chief Part of her Cargo has been brought to Town in Lighters, but much damaged, especially a large Quantity of Peas, consigned to the Agent Victualler, for the Use of his Majesty's Troops in this Place.

BOSTON, June 22.

We hear that on the 12th Inst. a Man was found dead (supposed to be murdered) about 4 Rods from the Road leading from Great Barrington, in the County of Berkshire, and about a Mile from Col. Elijah Williams's Iron Works.—His Body was found about 8 Rods from his Clothes, very much eaten by Vermin, and appeared to have been a Person in good Circumstances; he was of a middling Stature, had black curled Hair, a fine blue Broad Cloth Coat, new Buff Breeches, a stript Waistcoat, Stone Sleeve Buttons, and a very fine Holland Shirt, but is unknown, as well as the Murderer; tho' we hear, that Deacon Brown of Stockbridge, says, that the former was lately at his House with a Sum of Money (as he knew his Clothes) and that at the same Time there was also an old Country Man in his House that went off a little before the Deceased; and 'tis supposed the same Man, by Description, is now at Simsbury in Connecticut, for such a Person there, has lately inquired of a Berkshire Man whether there was not a Man found dead near Brown's aforementioned; which Inquiry was prior to his being found. 'Tis supposed he had been murdered five or six Weeks.

PHILADELPHIA, *June* 25.

Captain Allen from Barbados, informs, that on the 17th of May, the ship Cunny, Cap. Clap, from Cork and Madeira, with King's Stores, for Barbados, ran ashore on a place called Austend's Reef, which lies on the S. E. side of the island, where the vessel is lost, but the people and best part of the cargo saved.

We hear from Hopewell Township, Hunterdon county, New-Jersey, that on Saturday evening, the 13th instant, as one —— Runyon, was driving his waggon, loaded with boards, down a hill, about two miles from Pennington, his foot slipped, and he fell on one of the horses, which so alarmed them that they set off, and threw him under the wheels, which run over him and broke his Breast-Bone; he was immediately taken up by a negro fellow, who was riding on the road when this accident happened, and carried to a house near that place, where he died in great agonies about an hour afterwards. He was a very industrious, sober man, and has left a wife and several children.

His Excellency Governor Franklin has been pleased to appoint and establish four terms in the year, for holding the court of chancery in the province of New-Jersey, viz. two at Burlington, and two at Perth-Amboy, to begin on the Saturday next after the opening of the supreme court at each of the said places, and continue from day to day, as long as may be expedient.

Last week Capt. Hammond arrived here from the coast of Africa, but last from Nevis, who informs, that he left Seraleon about three months ago, where he heard there had been a sickly time in the river Gambia, that Governor De Bert, and all the traders at James's-Fort, on that river, were dead, and that the doctor was the only white man living belonging to the Fort. He also informs, that a few days before he sailed, Capt. Savery, in a brig belonging to London, trading at Camaranco, having got about 65 slaves on board, they rose upon the white people, killed the Captain, Mate, and all the crew, except a boy; and that the vessel was afterwards re-taken by one Mr. Cleveland, a trader, who recovered about 20 of the slaves, and intended to send the brig home, for the benefit of the insurers.

Capt. Wilkinson, from Barbadoes, on the 7th instant, in lat. 28. long. 63. spoke a snow, Capt. Dague, from the river Gambia for South Carolina, out 37 days; on the 13th at night he passed by the wreck of a small vessel, bottom upwards, but could not discover what she was.

Capt. Neil, from North-Carolina, informs, that about three weeks ago, a new ship, belonging to one Mr. Williams, of that place, bound to London, was cast away on Ocracock Bar, where the vessel was beat to pieces, and the cargo lost, but the sails and rigging saved.

Capt. Bunting, from North-Carolina, the 13th instant, off the Capes of Virginia, spoke a schooner from Cape Nichola Mole for Virginia, in whom was passenger Capt. Thomas Armstrong, late of the ship King George, bound from New-York for Jamaica, who writes as follows: "June 13, 1772; I am sorry to inform you, that on the 22d ult. I had the misfortune of striking on a shoal, called Silver Key; we never stopped, but tried the pumps as soon as possible, and found two feet and an half water in the hold, we continued pumping from five in the morning till 10 at night, at which time we found eight feet water. The water gaining so fast, and the hands being fatigued, we left off pumping, but staid two days longer by the vessel, when the sea made a fair breach over us; we were then obliged to leave her, as she would not answer the helm, we took to our boat, and in six hours reached Tortuga, from whence we got to Cape Nichola Mole, where we hired a vessel to go in search of our ship, and found her, with all her masts gone, and her decks blown up.—We saved nothing but a handkerchief of clothes each."
